Work Zone Safety Training: OSHA-10 and Flagger Certification

OSHA-10 Construction is an online course safety program required by employers to meet insurance requirements. We set up the online course and certification system. The flagger training is a four-hour value-added safety training mandated for road repair and construction.

Grader & Excavator, Loader, Backhoe and Skid steer Operations

Operate excavators from 7,000 to 25,000-pound machines in a five-acre outdoor classroom. Learn to grade roads and create ditches with a modern grader. Emphasis on safety, pre-start inspections, and maintenance of graders and excavators. Practice safe operation of wheel and track loaders, backhoes and/or skid steers in the outdoor classroom. Hands-on instruction in pre-start machine inspections, procedures, and preventative maintenance. Seat time for outdoor job site operation and on John Deere simulators for best practices

Cost: \$4000 for the two-week program and safety trainings.

Scholarships are available:

VT Residents: Contact Stacey King at VSAC
king@vsac.org

NH Residents: NH Charitable Foundation
The Medallion Fund
<https://www.nhcf.org/>

To register contact: Tracy Puffer
Phone: (802) 222-5212 ext. 131
Email: tracy.puffer@oesu.org

Minimum of 4 participants must register to run the course.

Fewer than 4 will cause the course to be cancelled.

We are committed to maintaining a learning environment free from discrimination on the basis of race, color, national origin, gender, religion, disability and sexual orientation.
